Quite interesting and educational activities

Everything is good

The activities were interactive, with their main goal to make us pursue into this cultural realm.

perfect

It was all incredible and we all learned things from the activities

Activities was very interesting

fun

It was great, but they can be a little more challenging than it was

I didn't like most energizers because they didn't connect people. I liked the other activities in general.

Everything is good

I think if we're given more time for the tasks and if they're not only games but like lessons e.g we're given information and then we have to present it. More activities that let us get to know eachother. Other than that, i enjoyed everything.

At first they were boring but as we progressed through the project they were better and better.

Childish

They were very interesting and added a lot to the project.

they were diverse

It was fun and i enjoyed them, I was just expecting to do more things that actually help the planet or learn more new, innovative information

Muito boas

Each activity is very interesting and requires the participation of all of us. it was too hot and sunny for activities i classified it as borderline torture but it was kinda fun

I liked them all, since this is my first youth exchange

Accommodation and Food of the Youth Exchange

Within your recent stay in KATO ALISSOS CAMPING, KATO ACHAIA (PATRA AREA, GREECE) for the need of the training please rate your overall satisfaction with:

Anything that you want to mention in particular that will make us better about our future projects which have to do with the accommodation place and the food in the project

Change the place of the project, maybe. People can not sleep during the day in the tent bcs it is very hot

To have four walls ;)))

I would recommend to improve the living conditions by not putting participants in such tents.

Better management of the lunch to make sure there is lunch for everyone; make sure there are some better vegetarian options, since some had no protein; maybe have more charging spots and a better wifi, since some activities used the phone and maybe have a safer place for the activities in case of rain

Just make sure that the participants know where they're staying. Also that the zipper works and we get blankets if it's cold. We should actually have cleaning days so it doesn't get too messy in the tent

The food is excellent, I have no complaints

Kosta and Spiros are the kings

Better wifi

No you are perfect

Better food in breaks, somewhere to keep the clothes in the tents, working wifi

no everythings fine

very kind employees

I think everything is good and the program must stay the same
Need more comfort beds please.

Allergies and vegetarians to have options

Really beautiful place and lovely view

Notting

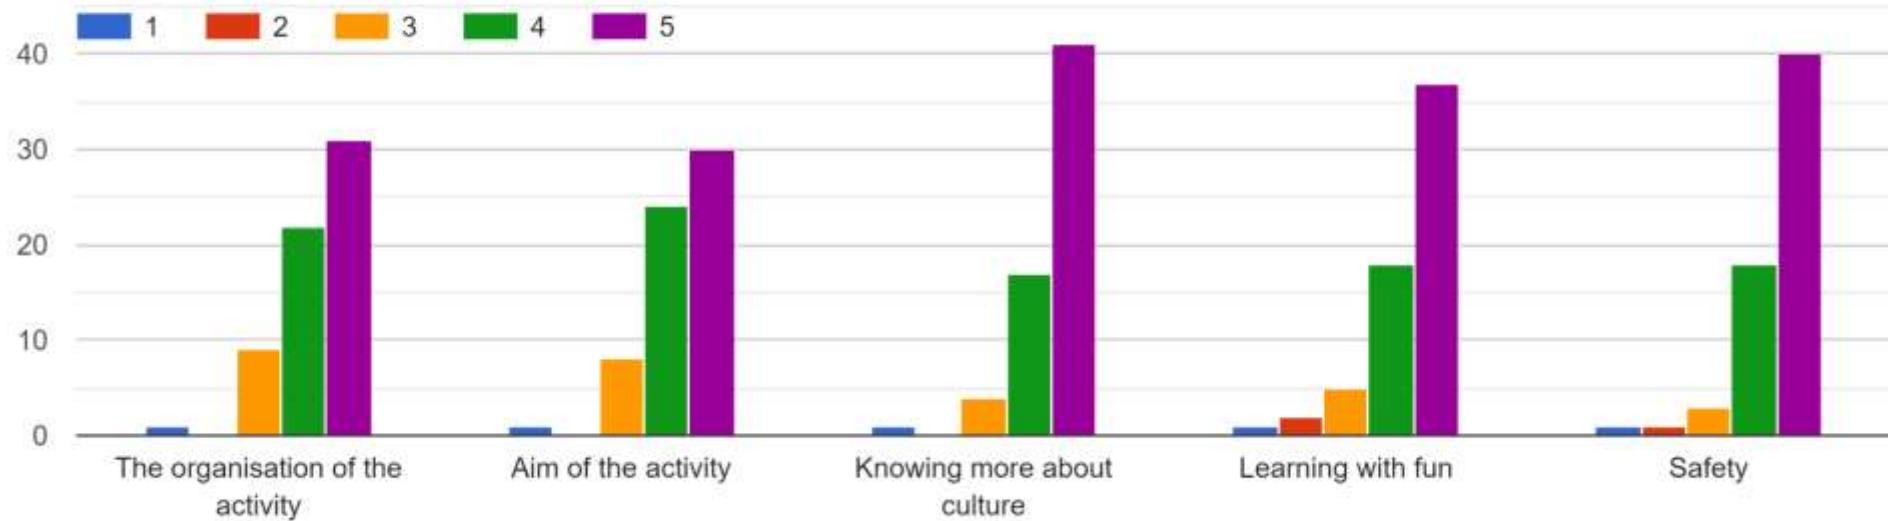

More space for participants, we were 5-6 people in a small tent and could barely fit

i prefer to have walls and doors next time tbh and more wifi bc here it doesn't work very good

pls no more tents i want 4 walls and a roof
