

**Evaluation of Erasmus+ project
“Green Plan to Plant” (GREPLA-PLA)
KA152YOU Youth Exchange Activity 29 June till 7 July 2024**

With this evaluation letter we would like to reflect on the project “Green Plan to Plant” (GREPLA-PLA) that took place in Kato Alissos, Patra, Greece.

The program was more than just a series of activities; it was a transformative experience that challenged participants to raise awareness on environment, get familiar with different tools and methods to work on the topic, and connect with others from diverse backgrounds.

We met several new organizations. With them we shared our knowledge and ideas during activities and later in the free time, made stronger bonds between our organizations that will for sure give us and our target groups more possibilities in the future.

We are very pleased that we organized this project and consider it to be a successful one. The project’s goals were achieved, and the results will soon be disseminated on the local level. We are grateful for all the support and experience our organization gained along the way. We are looking forward to future collaborations and would be glad to be partners again.

As the hosting organization we tried to be always in contact with each partner. Before the main project there have been several online meetings about the organizational stuff and pre-departure possible issues. Also, there were several platforms that were used for whole team’s communication: Facebook (messenger), e-mail, WhatsApp. Any problems that participants had during the project were easily and quickly solved. This partnership was collaborative and successful.

Closing we would like to thank all the partner organizations and the participants for their efforts during the program.

Athens 16/08/2024
